

PORTA-QUAD®

Ultra lightweight, stable lifting structure with rapid assembly.

Overview

PORTA-QUAD – the safer and more flexible alternative to tripod systems

PQ1000 and PQ500 variants each come with swivel-locking castors for easy manoeuvring. The *PORTA-QUAD* can also be supplied with levelling feet for easy use on most terrains.

Features and benefits

- Lightweight aluminium alloy construction
- Portable, comes in two heavy-duty carry bags (heaviest just 18kg)
- Rapid on-site assembly
- Highly stable structure compared to a tripod
- 360° swivel-locking castors – easy manoeuvring and secure locking around lifting area
- Anodised finish to minimise maintenance
- Manual handling compliant
- Levelling feet available – easy use on most terrains
- Tested to EN 795 Class B for personnel lifting
- CE approved
- **Customisation available**
